Fishing & Cooking Adventures in The South West

Fishing: The coastal and waters around Cornwall offer some of the best fishing grounds in the country. A wide range of species are available throughout the seasons and migration cycles. We operate a release policy in accordance with legal sizes and breeding seasons. Fish however are not guaranteed and all trips are subject to tides and weather. {There is always a plan B when it comes to obtaining fish for super.}

Foraging: The paths, meadows, woodlands and hedgerows of Burncoose estate is fertile ground for plenty of wild flavours to compliment the foraged fish of the day. Alternatively, coastal plant foraging provides natural pairing for seafood, including seaweed, dependent on the season and tide.

Also available:

Justin Ashton Private Chef for hire: £25 an hour plus ingredients costs based on a bespoke menu to meet the clients requirements.
